www.ukschoolofframing.co.uk

FREE Seminars / Demonstrations

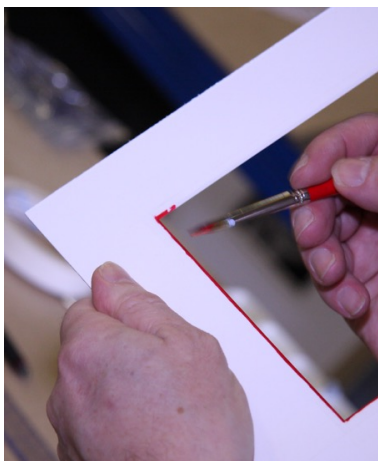

Places are limited and do need to be reserved in advance. To be sure of your place contact info@diyframing.com to book your seats.

Back of the Frame:

10.30 am – 11.30 pm

All about working with deep rebate mouldings, where you want the artwork at the back of a "box style frame"

- Step mouldings
- Adding depth away from the glass without mounts & spacers
- Pass through hinges
- Making artwork "hover"

Colouring Up:

12.30 pm – 1.30 pm

If the mount board colour and core don't work for you, here's some DIY tips to help.

- Coloured bevel edges in mounts (not just white or black)
- Coloured V-grooves
- Colouring mounts (wash effects)
- Creating a hand-coloured inner mount (on a double mount)

And then there's the ...

- Sales showroom
- Bargains and clearance sales
- Special offer mouldings
- Demonstrations of equipment
